Haven Focus

By Office Acoustics

A premium one-person focus pod designed for deep work and seamless video calls.

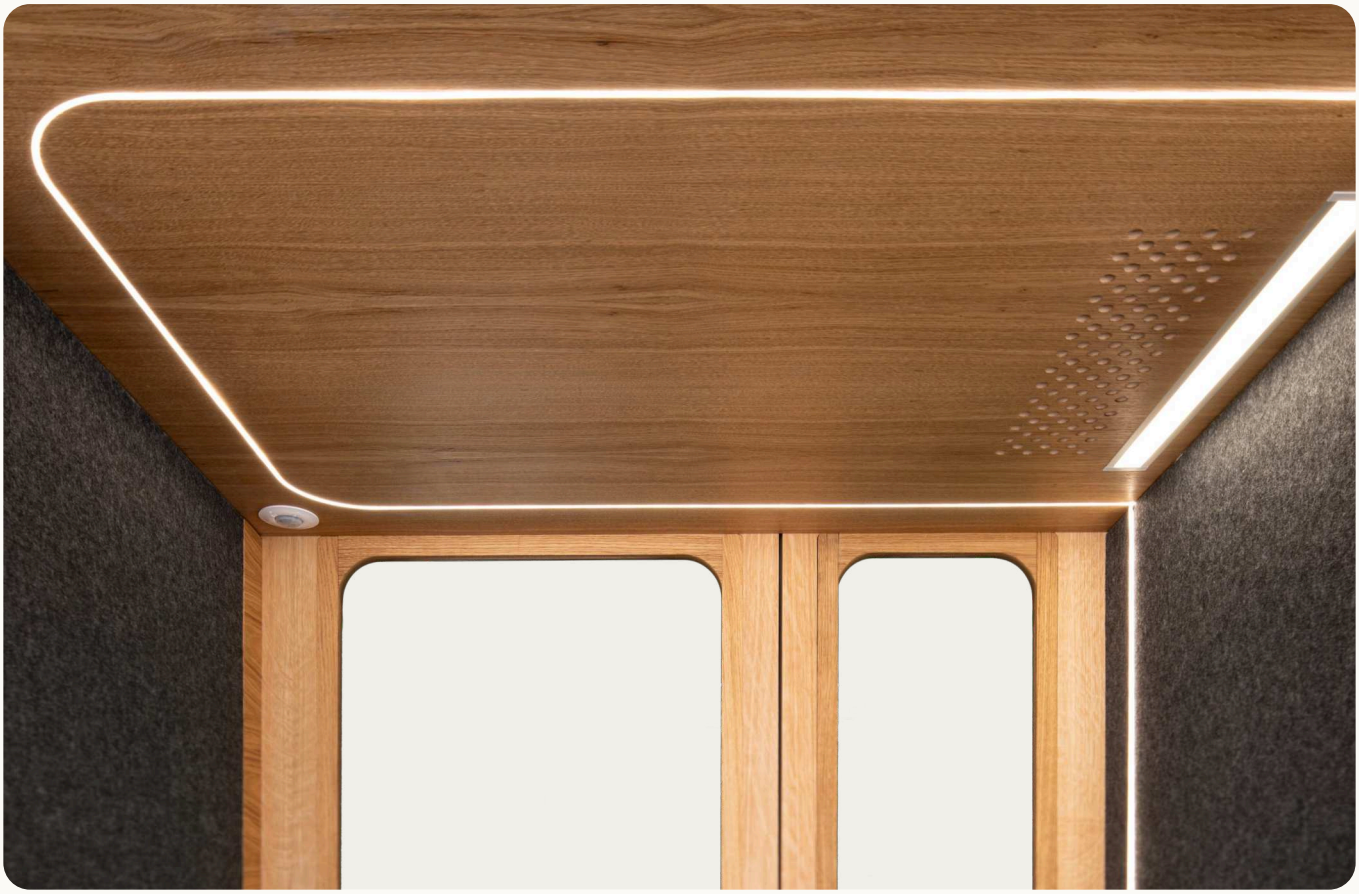

Office Acoustics

Transform your workspace with our sleek, soundproof focus pod.

Thoughtfully designed for focused work, private conversations, and seamless conference calls, it provides a quiet haven in bustling office environments. Equipped with superior acoustic insulation, ventilation, and ergonomic interiors, it's perfect for calls and solo work sessions. Modern design meets functionality, making it a seamless fit for any professional space.

Haven Focus | Highlights

Privacy you can count on

World-class soundproofing blocks a wide range of frequencies, ensuring unmatched privacy. Work with confidence in a quiet, distraction-free environment designed for focus and productivity.

Superior ventilation for extended calls

Haven Focus's advanced ventilation system refreshes the air inside the booth every minute, maintaining a clean, fresh, and comfortable environment. Perfect for long work sessions or extended calls, it helps you stay focused.

Lighting tailored to every task

Motion-activated LED lighting and LED light strips provide optimal brightness for any task. Whether focusing on detailed work or preparing for a video call, Haven Focus ensures the perfect lighting to support productivity.

Ergonomic design

Designed with your comfort in mind, the booth features a deep desk for personalised use. An ergonomically designed chair is available as an add-on, providing extra support during long work sessions. Every detail promotes healthy posture and minimises fatigue.

Haven Focus | Main Features

1. ISO-certified soundproofing

Haven Focus delivers guaranteed privacy with a speech level reduction of up to 30dB, backed by the industry's official ISO 23351-1:2020 certification for office phone booths and meeting pods. Triple-layered acoustic glass enhances sound isolation, making it the right choice for distraction-free work.

2. Seamless connectivity

Haven Focus keeps you connected and powered with 2x electric sockets, USB-A and USB-C ports, an HDMI port, and a reliable Ethernet connection.
Included monitor brackets support the 27″ QHD conference call monitor add-on, equipped with a built-in Super HD camera.

3. Sophisticated dual LED lighting system

Motion-activated LED lighting, versatile LED light strips, and an advanced light controller deliver optimal brightness for any task. Whether you're concentrating on detailed work or setting up for a video call, Haven Focus ensures perfectly tailored lighting to enhance productivity and comfort.

4. Timeless plug-and-play simplicity

Designed for longevity, our pods focus on what truly matters - no unnecessary frills, no software to update or replace, and no subscription services. With streamlined plug-and-play functionality, they deliver hassle-free usability.

5. Custom-designed ventilation system

Haven Focus' advanced ventilation system ensures optimal airflow by extracting up to 240 m^3/hour. The high-capacity ventilation keeps the air fresh and clean, maintaining a comfortable and healthy environment.

6. Fully automated

Our built-in sensor detects when someone enters or exits the pod, automatically turning the lighting on or off to ensure convenience and energy efficiency.

A compact and ergonomically designed booth, making it a perfect fit for any workspace.

Combining functionality with style, it offers ample space to accommodate all your gadgets. The booth's scratch-resistant oak veneer panels add a touch of elegance and the glass panels on both sides ensure plenty of natural light accompanies the stylish design.

The interior is thoughtfully made of sound-absorbing PET panels with low-maintenance hardwearing and durable carpeting, making it both practical and functional.

Haven Focus features a thoughtfully integrated deep table, offering ample workspace to keep your devices and essentials neatly organised.

- Custom-designed shelf
- Ergonomic handle made of natural oak
- Felt and carpet - highly durable, washable
- Cable management system
- Compact and modular design
- Triplex glass panels

Haven Focus | Sustainability

At Office Acoustics, we are dedicated to sustainability in every aspect of our business. Haven Focus reflects this commitment with eco-friendly materials, resource-efficient production, and impactful initiatives that support global environmental and social causes.

Trees planted

Sustainability at the core

Haven Focus is designed with a commitment to sustainability, blending eco-conscious practices with exceptional performance:

- ✓ Over 800 recycled plastic bottles are transformed into the acoustic felt used in every booth, effectively reducing plastic waste.
- ✓ The main frame is crafted entirely from natural, wood-based materials, eliminating the use of plastic or metal and prioritizing reusable resources.
- ✓ Modular construction promotes extended product lifecycles, reducing waste and resource consumption.
- ✓ Built with high-quality, durable materials to ensure longevity and minimize the need for replacements, further supporting environmental responsibility.

Sustainable production and waste management

At Office Acoustics, we prioritise environmental efficiency in every step of our process:

- ✓ Renewable energy powers production where available, reducing carbon emissions.
- ✓ Advanced resource optimisation minimises waste, with leftover materials recycled or repurposed.
- ✓ Modular, fully recyclable components extend product life and reduce environmental impact.

Our commitment to eco-friendly practices is backed by globally recognised certifications, including ISO 14001:2015 for Environmental Management Systems and the prestigious EcoVadis Gold Star rating.

Certificates and recognitions

Haven Focus exemplifies our commitment to sustainability through globally recognised certifications:

- ✓ **Ecovadis Gold Medal**
Awarded the prestigious Ecovadis Gold Medal, we rank in the top 5% of companies worldwide for our dedication to impactful environmental initiatives and sustainable practices.

- ✓ **FSC-certified wood**
The wood used in our booths is responsibly sourced from sustainably managed forests. With FSC certification, we ensure that our products actively support sustainable forestry and global conservation efforts.

- ✓ **ISO 14001:2015**
for Environmental Management Systems.

Haven Focus | Sustainability

Transportation

Our logistics are designed to minimise environmental impact at every step:

- ✔ Made-to-order production reduces waste and ensures optimal use of resources.
- ✔ Compact, modular designs enable tighter shipping loads, further cutting transport emissions.
- ✔ Packaging is entirely paper-based, ensuring easy recycling and alignment with sustainable practices.

Environmental contributions

Every Haven booth sold directly contributes to our sustainability initiatives:

- ✔ 25 trees planted to support reforestation and combat climate change worldwide.
- ✔ 2 solar lamps donated to families in Zambia, bringing clean, renewable energy to underserved communities.

OVERVIEW

Soundproofing

Haven Focus provides up to 30 dB speech level reduction, measured in accordance with ISO 23351-1 standards.

Lighting

Dual LED system with a main unit and two light strips. 4000K colour temperature, up to 500 lux on the tabletop.

Sensor

High sensitivity PIR sensor technology for automatic activation and deactivation of the main light and ventilation.

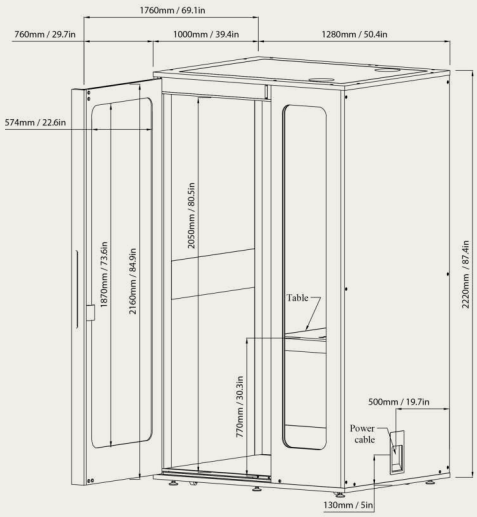

Ventilation

Maximum theoretical airflow of 242 m3/h, provided by a quiet dual unit ventilation system.

Haven Focus | Technical specifications

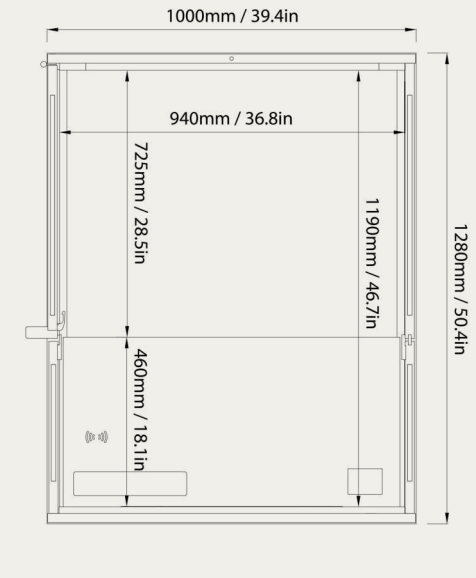

DIMENSIONS AND SPACE REQUIREMENTS

Dimensions	**Exterior:** H: 2250mm W: 1280mm D: 1000mm **Interior:** H: 2040mm W: 1206mm D: 938mm **Doorway:** H: 2020mm W: 740mm **Shelf:** H: 870mm D: 450mm
Operating space requirements	H: 2350mm W: 1300mm D: 1800mm
Installation space	Installation requires 1000mm of free space around the pod. Ceiling height must be at least 2350mm to facilitate the installation.
Weight	298 kg
Door operation ratio	160° | Left handed only
Mobility	Easily move the pod without disassembling thanks to the built in casters. To relocate, simply raise the leveling guides, then lower them again once the pod is positioned in its new location.
Shipping crate/pallet	**Dimensions:** H: 1500mm W: 2350mm D: 1240mm **Weight:** 478 kg

POWER AND ELECTRICAL SETUP

Available outlets and connections inside the booth	**2x Power outlets** (available in Type F, Type E, Type G, Type J and Type A) **1x USB-C (10W)** **1x USB-A (5W)** **Ethernet port** **HDMI** **1x wireless Qi charger (10W)**
External plug for powering the booth	**1x Plug** (available in Type F, Type E, Type G, Type J and Type A)
External power cord length	3 metres
Power consumption	**Standby mode:** 3.4W **Standby use:** 57W **At full brightness, including additional video call lighting:** 98W Input 100—240 VAC, 10 A*, 50—60 Hz Output 100—240 VAC, 6.6 A, 50—60 Hz

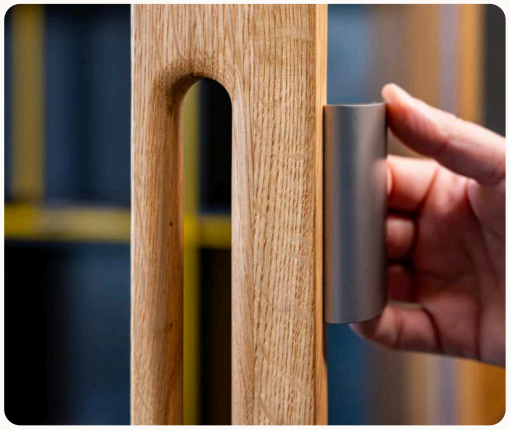

Haven Focus | Technical specifications

MATERIALS

Exterior panels	Natural oak veneer covered MDF sheets, 26mm thickness. Treated with high scratch resistant coating.
Glass	Three layer sound control laminated glass (Stratophone 4.4.2) with special acoustic PVB layer.
Handle	100% natural oak
Interior panels	PET felt sheets, made with at least 60% recycled plastic.
Table/shelf	Natural oak veneer covered MDF, with anti-fingerprint and scratch resistant coating.
Carpet	Highly durable and stain resistant polyester fabric.
Seating (optional add-on)	Height-adjustable ergonomic chair. With integrated LiveBack technology, adaptive bolstering and 4D adjustable arms. The maximum load capacity of up to 120 kg.
Colour options	natural oak · black · white
Felt colours	light tan

Office Acoustics is fully certified. Ensuring sustainability, quality and safety. Driven by world-class standards.

CERTIFICATES

All our phone booth models have been tested according to **ISO 23351-1:2020** — Acoustics — Measurement of speech level reduction of furniture ensembles and enclosures.

FLAMMABILITY EVALUATED ACCORDING

- DIN EN 1021-1
- DIN EN 1021-2

tuvsud.com/ps-cert

DIN EN 1021-1:2014 - Smouldering Cigarette
DIN EN 1021-2:2014 - Gas Flame (Match Flame Equivalent)

ISO COMPLIANCE

Our management systems have been certified according to:

ISO 9001:2015 - Quality management systems

ISO 9001:2015 - Environmental management

ISO 9001:2015 - Information security

ISO 9001:2015 - Occupational health and safety

Our products have been certified for electromagnetic compatibility (EMC), according to **IEC 60335-1:2020.**
